# ExpertPath

Providing clinical expertise and tailored insights, this comprehensive decision-support tool helps you deliver reliable results for even the most challenging cases, including access to:

- 5,200+ common and complex diagnoses
- 5,000+ introductory modules
- 34 Anatomic & clinical pathology specialties
- 77,000 high-quality example images

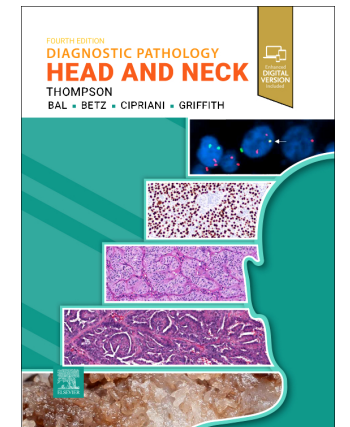

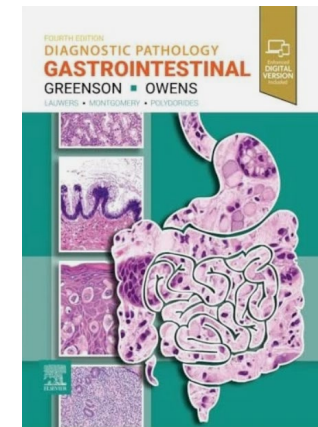

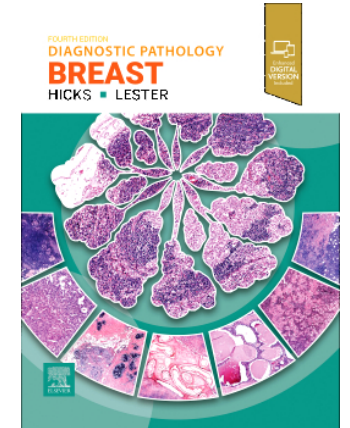

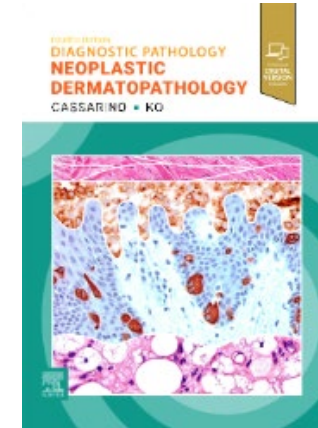

# Diagnostic Pathology Series

## How is ExpertPath different from the eBooks?

Elsevier's eBooks are a digital copy of our Diagnostic Pathology books, each of which covers specific topics. ExpertPath is a comprehensive, searchable, integrated pathology decision support system covering all anatomic pathology areas. ExpertPath includes many features to customize and personalize the content in a way that makes finding content and reaching a diagnosis quick and easy.

If you have any further questions, please contact us using the options below.

# Remote Access (180 days)

The image shows the top navigation bar of the ExpertPath website. On the right side, there is a user profile icon circled in red. A dropdown menu is open, showing options: Preferences, Profile, Password, Remote access (circled in red), and Logout. The 'Remote access' option is highlighted with a red circle and a red arrow pointing to it.

Apply for remote access

If your institution has Remote Access enabled, this feature will allow you to access this application even when you are not on your institution's network.

To begin, please input your institutional email address below. Remote Access is not compatible with a Yahoo, Gmail, or other personal email account. If you do not have an email address associated with your institution, please contact your institution's administrator to obtain remote access.
